ACCESS TO SENSITIVE INFORMATION

[A-E, CIS, CREI, CT, FPC, FP-NR&D, FP-R&D, LH-T&M, REL, RSA, T&MC – 10/10] [NFS 1852.237-72 6/05]

(a) As used in this clause, "sensitive information" refers to:

- (1) Information that a contractor has developed and marked as proprietary, confidential, or with a limited or restricted rights notice, or that the Government has generated that qualifies for an exception to the Freedom of Information Act, which is not currently in the public domain, and which may embody trade secrets or commercial or financial information, and which may be sensitive or privileged;
- (2) Information that is marked JPL/Caltech Proprietary, Proposal Sensitive or Business Discreet;
- (3) Design information or guidance as may be embodied in or derived from computer-aided engineering, computer-aided design, analysis models, manufacturing models, drawings or translations of any of the foregoing, regardless of whether such information or guidance is marked or unmarked; or
- (4) Information obtained directly from JPL electronic resources, such as JPL computers, servers, networks, electronic libraries or document repositories, regardless of whether such information is marked or unmarked.

(b) If performing this subcontract entails access to sensitive information, as defined above, the Subcontractor agrees to:

- (1) Utilize any sensitive information coming into its possession only for the purposes of performing the services specified in this subcontract, and not to improve its own competitive position in another procurement nor for any other purpose.
- (2) Safeguard sensitive information coming into its possession from unauthorized use and disclosure using the same standard of care as the Subcontractor uses to protect its own confidential information, but under no circumstances less than a reasonable standard of care.
- (3) Maintain any restrictive markings on sensitive information coming into its possession and on any copies thereof.
- (4) Allow access to sensitive information only to those employees that need it to perform services under this subcontract.
- (5) Preclude access and disclosure of sensitive information to persons and entities outside of the Subcontractor's organization.
- (6) Train employees who may require access to sensitive information about their obligations to utilize it only to perform the services specified in this subcontract and to safeguard it from unauthorized use and disclosure.
- (7) Obtain a written affirmation from each employee that he/she has received and will comply with training on the authorized uses and mandatory protections of sensitive information needed in performing this subcontract.
- (8) Administer a monitoring process to ensure that employees comply with all reasonable security procedures, immediately report any breaches to the JPL Subcontracts Manager, and implement any necessary corrective actions.
- (9) Return to JPL or destroy all sensitive information, and copies thereof, no later than the effective date of the termination or expiration of this subcontract. Within thirty days of that effective date, the Subcontractor shall confirm in writing to JPL that all sensitive information received during the course of this subcontract has been returned or destroyed.

(c) The Subcontractor will comply with all procedures and obligations specified in any Organizational Conflicts of Interest Avoidance Plan incorporated into this subcontract.

(d) The nature of the work on this subcontract may subject the Subcontractor and its employees to a variety of laws and regulations relating to ethics, conflicts of interest, corruption, and other criminal or civil matters relating to the award and administration of government contracts. Recognizing that this subcontract establishes a high standard of accountability and trust, JPL will carefully review the Subcontractor's performance in relation to the mandates and restrictions found in these laws and regulations. Unauthorized uses or disclosures of sensitive information may result in termination of this subcontract for default, in addition to any other rights and remedies available by law to the Government, JPL or other provider of sensitive information.

(e) The Subcontractor shall not be liable for the use or disclosure of sensitive information that the Subcontractor can demonstrate is: (1) in the public domain other than by a breach of this clause by the Subcontractor; (2) received by the Subcontractor from a third party without any obligation of confidentiality; (3) known to the Subcontractor without any limitation on use or disclosure prior to its receipt from JPL under this subcontract; (4) independently developed by the employees of the Subcontractor as evidenced by written documentation; or (5) generally made available to third parties by the originator of the sensitive information without restriction on disclosure.

(f) Unless otherwise specifically provided in this subcontract, no warranty, express or implied, including without limitation any warranty of accuracy, utility, merchantability or of fitness for a particular purpose, is provided hereunder for any of the disclosed sensitive information.

(g) The Subcontractor's obligations under this clause shall survive the expiration or termination of this Subcontract.

(h) Notwithstanding paragraph (b)(5), the Subcontractor may submit a written request to the JPL Subcontracts Manager for authorization to disclose sensitive information to its lower-tier subcontractors. If JPL authorizes the disclosure, the Subcontractor before making any such disclosure must include the substance of this clause, suitably modified to reflect the relationship of the parties, in any lower-tier subcontract that will involve access to sensitive information. The Subcontractor shall also require an acknowledgement in any such lower-tier subcontract that: (1) the corresponding clause is being included for the benefit of JPL as a third-party beneficiary, and (2) in addition to any other rights it may have, JPL is intended to have a right of direct action against the lower-tier subcontractor, or any other person to whom that subcontractor has released or disclosed that sensitive information, to seek damages for any breach and/or to seek enforcement of that clause in the lower-tier subcontract.

DEFINITIONS

[CIS 02/09] [FAR 52.202-1 – 12/01]

As used throughout this Subcontract, the following terms shall have the meanings set forth below:

- (a) The term “commercial component” means any component that is a commercial item.
- (b) The term “commercial item” means (see related term “non-developmental item” below):
 - (1) Any item, other than real property, that is of a type customarily used by the general public or by non-governmental entities for purposes other than governmental purposes, and that:
 - (A) Has been sold, leased, or licensed to the general public; or
 - (B) Has been offered for sale, lease, or license to the general public;
 - (2) Any item that evolved from an item described in paragraph (b)(1) of this Article through advances in technology or performance and that is not yet available in the commercial marketplace, but will be available in the commercial marketplace in time to satisfy the delivery requirements under a solicitation;
 - (3) Any item that would satisfy a criterion expressed in paragraphs (b)(1) or (2) of this Article, but for:
 - (A) Modifications of a type customarily available in the commercial marketplace; or
 - (B) Minor modifications of a type not customarily available in the commercial marketplace made to meet JPL or Federal Government requirements. “Minor” modifications shall mean modifications that do not significantly alter the nongovernmental function or essential physical characteristics of an item or component, or change the purpose of a process. Factors to be considered in determining whether a modification is minor include the value and size of the modification and the comparative value and size of the final product. Dollar values and percentages may be used as guideposts, but are not conclusive evidence that a modification is minor;
 - (4) Any combination of items meeting the requirements of paragraphs (b)(1), (2), (3), or (5) of this Article that are of a type customarily combined and sold in combination to the general public;
 - (5) Installation services, maintenance services, repair services, training services, and other services if:

- (A) Such services are procured for support of an item referred to in paragraph (b)(1), (2), (3), or (4) of this definition, regardless of whether such services are provided by the same source or at the same time as the item; and
- (B) The source of such services provides similar services contemporaneously to the general public under terms and conditions similar to those offered to the Federal Government;
- (6) Services of a type offered and sold competitively in substantial quantities in the commercial marketplace based on established catalog or market prices for specific tasks performed under standard commercial terms and conditions. This does not include services that are sold based on hourly rates without an established catalog or market price for a specific service performed. For purposes of these services:
 - (A) "Catalog price" means a price included in a catalog, price list, schedule, or other form that is regularly maintained by the manufacturer or vendor, is either published or otherwise available for inspection by customers, and states prices at which sales are currently, or were last, made to a significant number of buyers constituting the general public; and
 - (B) "Market prices" means current prices that are established in the course of ordinary trade between buyers and sellers free to bargain and that can be substantiated through competition or from sources independent of the offerors.
- (7) Any item, combination of items, or service referred to in subparagraphs (b)(1) through (6), notwithstanding the fact that the item, combination of items, or service is transferred between or among separate divisions, subsidiaries, or affiliates of a Subcontractor; or
- (8) A non-developmental item, if the JPL Subcontracts Manager determines the item was developed exclusively at private expense and sold in substantial quantities, on a competitive basis, to multiple State and local Governments (see definition below)
- (c) The term "component" means any item supplied as part of an end item or of another component, except that for use in 52.225-9, and 52.225-11 see the definition in 52.225-9(a) and 52.225-11(a).
- (d) The term "Contracting Officer" means the Government Contracting Officer for the Prime Contract. The term includes certain authorized representatives of the Contracting Officer acting within the limits of their authority as delegated by the Contracting Officer.
- (e) The term "FAR" means the Federal Acquisition Regulation as in effect on the date of this Subcontract, unless otherwise indicated.
- (f) The term "Government" means the Government of the United States of America, unless the context is otherwise.
- (g) The term "Government-furnished property (GFP)" includes JPL-furnished, Government-owned property.
- (h) The term "Institute" means the California Institute of Technology as a party to this Subcontract.
- (i) The term "JPL" means the Jet Propulsion Laboratory as the organizational element of the Institute having responsibility for administration of this Subcontract. The rights of JPL under this Subcontract are the rights of the California Institute of Technology as a party to this Subcontract.
- (j) The term "JPL Subcontracts Manager" means the individual authorized to issue and administer this Subcontract for JPL.
- (k) The term "Lower-tier Subcontract," as used in this Subcontract, includes, but is not limited to, purchase orders under this Subcontract.
- (l) The term "NASA" means the National Aeronautics and Space Administration.
- (m) The term "NFS" means the NASA FAR Supplement as in effect on the date of this Subcontract, unless otherwise indicated.
- (n) The term "non-developmental item" means:
 - (1) Any previously developed item of supply used exclusively for governmental purposes by a Federal agency, a State or local government, or a foreign government with which the United States has a mutual defense cooperation agreement;

- (2) Any item described in paragraph (n)(1) of this definition that requires only minor modification or modifications of a type customarily available in the commercial marketplace in order to meet the requirements of the procuring activity; or
- (3) Any item of supply being produced that does not meet the requirements of paragraph (n)(1) or (2) solely because the item is not yet in use.
- (o) The term "person" means any individual, partnership, corporation, association, institution, or other entity.
- (p) The term "Prime Contract" means the Contract between the Institute and NASA for the United States of America (herein called the Government).
- (q) The term "Schedule" means the statements in the order/Subcontract including statement of work, description of items to be supplied, delivery dates, special provisions, options and any other statements excluding the General Provisions (the term "General Provisions" includes any "Additional General Provisions"), and any proposals, specifications or other documents or provisions which are made a part of this Subcontract by reference or otherwise.
- (r) The term "Subcontract amount" means the Subcontract price, the estimated cost and fee, if any, or the ceiling price of the Subcontract.
- (s) The term "Subcontractor" means the selling party to this Subcontract/Order with the California Institute of Technology (the Institute)/JPL being the buying party. The "Subcontractor" is the Lower-tier Subcontractor under the NASA Prime Contract between NASA and the Institute/JPL.
- (t) The terms "United States" or "U.S." mean the United States of America.

DRUG-FREE WORKPLACE REQUIREMENTS

[CT, FP-NR&D, FP-R&D, CIS, T&MC, LH/T&M, FPC, CREI, A - E - 09/04] [FAR 52.223-6 - 05/01]

The Subcontractor agrees to inform all Subcontractor personnel who work at JPL or are involved with any JPL activity on or off JPL premises that they are required to comply with the JPL "Drug Free Workplace Policy." The Subcontractor further agrees to inform all Subcontractor personnel, working at JPL or involved with any JPL activity on or off JPL premises that JPL's policy is to fully comply with the requirements of the Drug-Free Workplace Act and that Subcontractor personnel are required to comply with JPL's policy of maintaining a drug-free workplace.

The Subcontractor shall institute and maintain a program for achieving a drug and alcohol-free workforce. As a minimum, the program shall provide for pre-employment, reasonable suspicion, random, post-accident, and periodic recurring (follow-up) testing of subcontractor employees in sensitive positions for use, in violation of applicable law or Federal regulation, of alcohol or a controlled substance.

ELECTRICAL EQUIPMENT ACQUISITION

[CT, FP-NR&D, FP-R&D, CIS, T&MC, LH/T&M, FPC, CREI - 09/04]

(This Article is applicable if the Subcontract involves acquisition of off-the-shelf electrical equipment for delivery to or use by JPL or its designees.)

The electrical equipment being provided by the Subcontractor under this Subcontract shall be listed by Underwriters Laboratory, Factory Mutual Insurance Association, Canadian Standards Association, or similar organization of recognized standing. In the event that the equipment does not carry an appropriate approval, the individual components making up the item must be listed. Proof of listing shall be provided with delivery of the equipment in the form of accompanying data or labels. Any item not conforming to these requirements may be returned to the Subcontractor at the Subcontractor's expense. The Subcontractor agrees to require Lower-tier Subcontractors, if any, which supply electrical equipment for delivery to or use by JPL or its designees to comply with this Article.

INSPECTION AND ACCEPTANCE

[CIS – 09/04] [FAR 52.212-4 – 02/02]

- (a) Inspection/Acceptance. The Subcontractor shall only tender for acceptance those items that conform to the requirements of this Subcontract. JPL reserves the right to inspect or test any supplies or services that have been tendered for acceptance. JPL may require repair or replacement of nonconforming supplies or performance of nonconforming services at no increase in Subcontract price. Supplies are nonconforming when they are defective in material or workmanship or are otherwise not in conformity with Subcontract requirements. JPL must exercise its post-acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.
- (b) The Subcontractor shall remove supplies rejected or required to be corrected. However, JPL may require or permit correction in place promptly after notice, by and at the expense of the Subcontractor. The Subcontractor shall not tender for acceptance corrected or rejected supplies without disclosing the former rejection or requirement for correction, and, when required, shall disclose the corrective action taken.

- (c) If the Subcontractor fails to promptly remove, replace, or correct rejected supplies that are required to be removed or to be replaced or corrected, JPL may either (i) by Subcontract or otherwise, remove, replace, or correct the supplies and charge the cost to the Subcontractor or (ii) terminate the Subcontract for default as provided in the Article of this Subcontract entitled "Termination" for Cause." Acceptance shall be conclusive, except for latent defects, fraud, gross mistakes amounting to fraud, or as regards JPL's rights under any warranty or guarantee, or as otherwise specified in this Subcontract.

If occupational diseases are not compensable under those statutes, they shall be covered under the Employer's Liability section of the insurance policy, except when Subcontract operations are so commingled with the Subcontractor's commercial operations that it would not be practical. The Employer's Liability coverage shall be at least \$100,000, except in states with exclusive or monopolistic funds that do not permit worker's compensation to be written by private carriers. Also, such certificates and the endorsement shall (i) cover contractual liability assumed under this Subcontract, and (ii) be primary and non-contributing to any insurance procured by the Institute. The Subcontractor agrees to permit the Institute to examine its original policies, should the Institute so request. Should the Subcontractor at any time neglect or refuse to provide the insurance required herein, or should such insurance be canceled, the Institute shall have the right to procure same and the costs thereof shall be deducted from monies then due or thereafter to become due to the Subcontractor.

(d) Indemnification.  - (ii) All such work is to be performed outside the United States, its possessions, or Puerto Rico, modified as necessary to correctly identify the parties.
- (2) At least five days before entry of each such Lower-tier Subcontractor's personnel on the Government installation or Institute-controlled premises, the Subcontractor shall furnish (or ensure that there has been furnished) to JPL a current certificate of insurance meeting the requirements of paragraph (c) above, for each such Lower-tier Subcontractor.
